

I dress myself in black In black from head to heels I take my promise back Cause you don't know how it feels

No, you don't take me as I am No, you don't want to know at all Who is the face behind the mask I'll be the one who'll make you fall

Beware! Beware! I'll be the one The one to take you under Beware!

I hate the light of day
I'm happy when it rains
The stars shine on my way
But the memory remains

No, you don't take me as I am...

Beware! Beware! I'll be the one...

I am the night's revenge I've got a soul to sell And yet a fist to clench So wait for me in hell

Beware! Beware! I'll be the one...

Wait for me in hell I'll see you in hell

Watch my poster on the wall
View my pictures on the magazines you store to have them all
Let me be your guiding light
Be the salt inside the wounds of your most ordinary life

Come closer — what you want is what you see Desire — but you won't dare talk to me

So pure a lie — a hymn for the emotional man So clean and shy — get it while you can And yes, what I am is not what you see Your interest's somewhere else Your carnal longings make you all the same

Writing letters, sending mails
Offering me your honest interest in what's inside of me
No sins on your mind, of course
Pretend to intellectualize another wasted girl resource

You tell me – you knew what I need So sorry – for the hypocrit I feed

So pure a lie...

Just a number in a game – you tell me I had a name Creation of an industry – and not what you might think to see Glorify an icon's shrine – whose image of me is not mine Not to save you from your mess – tell you you may kiss...

So pure a lie...

They call for me Dance Of The Seven Veils I have no choice I'm nothing if I fail

Lonely Salomé, Dancing Salom Veil for veil away Villain and prey

The first veil falls – illusion
The second one – innocence
The third one follows – pride
And four was my way back

Losing my dignity With every move I make I'm losing it The veil falls

Freedom was long ago
With every step I take
I walk away
From this veil

Singing Salomé, Naked Salomé Veil for veil away Villain and prey

If there's one thing left to see That's of interest Then it's in my chest The seventh veil is me We are riding hand in hand
We are chasing unicorns
And elves
Chinese dragons guide our way
To the dawning of the day
We will give a promise to
Ourselves
Only for tonight

Only for the stars in your eyes
We are crazy, but who cares...!
To our heaven there are stairs

If we want it to be like

That

And reality is just

An illusion that we must Soon return to, yes, but not Yet
Only for tonight

Only for tonight
Only for the stars in your eyes

Hey, Give me what I need Hey, you are what I want

Only for tonight
For your eyes only

Only for tonight
Only for the stars in your eyes

Close to the flame
Behind my eyes there is a beast
that longs for you
Calling my name
So if you're brave enough to risk it
follow me
Into the firestorm

Have you ever been inside a flame? Did you ever play a burning game? Would you do what I want you to do? Do you like the way I'm burning you?

There's no need to be afraid of this Let me melt you with my dragon-kiss Let me walk with you the firing line Put your burn onto the heart of mine

(I. Will. Burn. You.)

Yesterday I had a flaming dream
We were swimming in a lava stream
We were watching an exploding sun
Counting sparkles until they were gone

Bells ringing, it's my wake-up shout I know the way out It's five past twelve, we'd better run A new age has begun

Hush, little darling, don't you cry I am your favour Pam your answer, I'm your light I'm your saviour

Oh, I know where we're going, I hold the key to our fate Let's face a new morning before it's too late

See! A new age has begun I will get you To a time of brightest light Empty is my name and I am right

You think your life will bring you down Just clean up your mind I am enlightened, I have come Just to lead the blind

Oh, no tar and no feathers whith answers so close at hand I'll drive you to madness, but that's what you want!

See! A new age has begun...

I am the insect inside your mind
The buzzing noise that you can't find
Over your shoulder, inside your head
I turn the switch from good to bad
Material saviour with bank account
Glad for the bliss that you have found
A VISA-master, cards up my sleeve,
Appreciate what you leave

See! A new age has begun...

I am like the endless ocean Carry dreams to distant shores You are like the wind that moves me Whispering breeze and roaring storm

Azure is my garden I grow some seaweed on the ground I sleep and dream of naiads And of the sunk ships that I found

I am like the endless ocean...

Through the rough sea's current

My blue heart's drawn to your caress I'll give you salty kisses
How do you like my glittering dress?

Seawards, seawards
Sail your vassels
Human plaything for my waves
Seawards, seawards
Sail your vassels
'Til my seabed is your grave

I am like the endless ocean...

Follow me through the night
We are sisters of the light
We are daughters of sin
We are laughter in the wind
Follow me through the night
We are sisters of the light
We are wild, we are free
Through the darkness follow me!

Follow me now

Follow me through the night...

You alone, you can let time stand still and You create the missing element

We're the fires of hell
We're the deep rough sea
We're the stormy air
We are we
We're the ashes of time
And we are banshee
Through the darkness, sister
Follow me!

Follow me now

Follow me through the night.

Night falls down and soon we're all alone
What do you have in mind, guidance of the blind, I feel lost
Lost inside this maze of shame and sin
a taste of sweetest wine, addictive yet so fine, I want more

The conscience says no, all senses yell go, there's too much at stake this time the more I deny, the more I commit to this night

Chorus: Don't tell me what you feel, don't tell me what you seclose your eyes and stay behind the scene any alibi will be one step over the line
Do you feel my pain, do you share my fears so right even if I die tonight

Will I pay the price at the edge of time Let sleeping dogs lie

Time stands still, the room seems frozen now two creatures moving in a game of lose or win, right or wrong step aside, losen this stranglehold

May heaven's fires burn the point of no return, sensual thorn

My head's spinning round, waiting to fall, fall for a secret desire

too far to starve yet too close to breathe in this lie

Chorus: Don't tell me ..

Gonna make your sleeping dogs fly

I'm on my way — to the places only you have seen
So far away — show me places where I've never been
Come touch my soul — you're here to fill this life of mine
Take my control — this Midas touch is all divine

I am your light, the keeper of the flame You are the night causing sweetest pain

And I feel it is real — nothing I can hide inside
A spirit took me back to life again
And I see it is real — forgotten's what I used to be
A new born soul, I'm on my way

To where all dreams whisper your name
I'm yours to take — made in heaven, not in vain
In your dark eyes — lies the suffering of my pride
Look at my tries — to fight this longing I can't hide

You're what I need — got me out of mind You will take the lead — forever, I'll be blind

And I feel it is real - nothing I can hide inside...

Once I thought this could not happen Solitary, my soul, now gone astray

And I feel it is real – nothing I can hide inside...
